

vergelijkingstabel ZW3D

De functionaliteit van de verschillende modules

Specificaties	ZW3D Lite	ZW3D Standard	ZW3D Professional	ZW3D Premium	ZW3D 2X Machining	ZW3D 3X Machining	ZW3D 3X + Machining	ZW3D 5X Machining (Add-on)
Core Design								
SmoothFlow Direct Edit & Quick Edit								
ZW3D Kernel with Sketching and QuickShapes								
Hybrid 3D Shape & Feature Modeling								
Show-n-Tell Built-in Tutorials								
Translators for IGES, STEP, DWG/DXF, VDA, STL								
Directly Open, Edit and Save 3D Models from CATIA, Inventor, NX, Creo, SolidWorks and ACIS								
2D Detailing, Sections, Details/Bom & Hole Tables								
Geometry Healing								
Freeform Class-A Surfacing & Shape Morphing								
Expert Assembly & Motion								
Design Optimizer, Compare, Real-View & Checking								
Links to FEA, PDM, CMM and Macro Recorder								
Integrated PartSolutions Library								
Special Apps								
Sheet Metal Design								
Reverse Engineering - Point Cloud								
Core Cavity QuickSplit, Parting Lines & Surfaces								
Basic Mold Base Library								
Cooling Channels, Slides, Inserts & Electrodes								
Manufacturing								
2-Axis Turning								
2-Axis Milling								
Hole Making								
Auto-feature Tactics								
3-Axis Surface Milling								
QuickMill High Speed Milling								
Smoothflow Adaptive Feedrate Control								
CAM Folder								
Auto Assign Speed Feed Table								
ZW3D Post Processor								
CNC Output Manager								
Solid Verification								
4&5-Axis Machining
